

随着医疗 IT 技术的逐步发展，中国正快速迈入一个移动 / 远程医疗、云计算、大数据、精准医疗和人群健康管理的新时代。HIT 已然成为中国增长最快的产业之一，随之而来的是摆在医院面前的诸多机遇和挑战！在这样一个高速变革的时代，每一项决策所涉及的投入之巨，影响之大，无不让医院领导者们深感责任之重大——高速变革的时代要求大家能够做出正确的决策和投入，找准对的技术策略，构建可持续的合作关系，从而确保对患者安全、医疗服务质量和医院运营的良好回报！面临如此迫切的局面，HIMSS 大中华区诚邀政府官员、医院管理者和业界领袖共聚一堂，探讨医院和其他医疗机构如何能够获得最优的 HIT 投入回报！

By passing the step-by-step development of information technologies in healthcare, China is frog-leaping into the age of mobile-health/tele-medicine, cloud computing, big data, precision medicine, and population health management. HIT becomes one of the fastest-growing industries in China, presenting hospitals with unprecedented opportunities and challenges. It is in such a period of rapid transformation, with stakes being so high and the consequences of choices so significant, that hospital top leaders face daunting responsibilities in making the right decisions and investments to embrace right technology strategies and form lasting partnerships to ensure their healthy returns on patient safety, quality, and hospital operations; it is in such a state of urgency that HIMSS Greater China brings together government officials, hospital executives, and industry leaders to discuss how to make the best returns on HIT investments for hospitals and other healthcare organizations.
